#### UPPER RIGHT HAND CORNER

Picture of an A-2 Practice (Permanent Cover Crop) on the farm of Mr. and Mrs. Dick Downey of Star Route, Omak, Washington. The Downey's were selected as Soil Conservation Farmers of the year in 1962 by the Okanogan Kiwanis Club.

#### LOWER RIGHT HAND CORNER

Picture depicts a farm storage facility in Lincoln County.

#### UPPER LEFT HAND CORNER

Picture of a concrete-lined irrigation ditch put in by Rolland Baze under the 1963 ACP. This is the first slip-form concrete lined canal of this type to installed in Benton County.

#### LOWER LEFT HAND CORNER

1962 harvest underway on the Vernon Smith farm near Dayton, Washington. The view is from a high ridge looking down into the beautiful Touchet Valley below Dayton, Washington.

#### LEFT HAND SIDE

C-8 Practice showing a rip rap job in King County.

## F O R E W O R D

Waste of natural and human resources by mankind throughout the ages has resulted not only in the failure of nations, but in the extinction of whole civilizations.

Food and its production have always been the dominant need of man, but the lot of the man who tilled the soil was often given little consideration, even in the early days of our own country, until the latter part of the nineteenth century. Many people began to urge and practice conservation and study the harmful effects upon society of the farm population condemned to a low income because of our great productive capacity and a lack of voluntary organization to fit supply to demand, such as is done by many other segments of our society.

Many public minded, far sighted citizens, spurred by a smothering economic depression, brought about legislation that fathered many of the action programs that we now so proudly administer. The Agricultural Conservation Program aids farmers in conserving the soil, who might not otherwise have the means. Production adjustment helps to tailor production to need and prevent excessive price-killing surpluses; and price support prevents that harvest time plummeting in prices when farmers' mortgage payments are to be made.

This comprehensive summary of the early 1960's and the results therein are due to the people of yesteryear, as well as our present competent and dedicated people in the United States Department of Agriculture.

Our action programs are administered in the great State of Washington by the A. S. C. State Committee. The accomplishments of the past five years outlined herein were made possible by the cooperation and sacrifice of farmers making up thirty-nine Agricultural Stabilization and Conservation County Committees and two hundred ninety-eight Community Committees. We gratefully acknowledge their assistance.

We thank farm organizations and individuals who have aided us and studied our problems. We particularly thank non-farm people and non-farm groups who are attempting to understand farm problems, the same as farmers are trying to understand problems of urban people. Our problems are mutual, inasmuch as we must all work together with a common understanding, and at the same time keep our moral fabric the high standard of living and our free institutions that are the envy of the whole world.

0.005% or less.

Number of farms exceeds number of units because of pooling agreements.

All data except the amount of assistance may be duplicated in C-12P.

The extent represents all of the acreage irrigated on farms performing the practice.

Includes \$171,405 advanced to the 1961 ACP and excludes \$30,000 advanced from the 1963 ACP, as authorized by the 1962 Appropriation Act.
